

BLUETOOTH LIGHTING MADE SIMPLE

Avi-on App

Controls for quality and precision

Manufacturing facility lighting systems require safety, energy savings, compliance with building codes and minimal maintenance. Upgrading to Avi-on light controls ensure critical illumination in manufacturing and inspection areas where light quality and control are essential to ensure minimal shade and precise color in the work environment. Not only do Avi-on controls provide the highest of quality, but the simplicity of the Bluetooth™ system significantly reduces installation and commissioning effort and requires no special training. Intuitive tools allow for rapid configuration and updates making maintenance simple without limiting features.

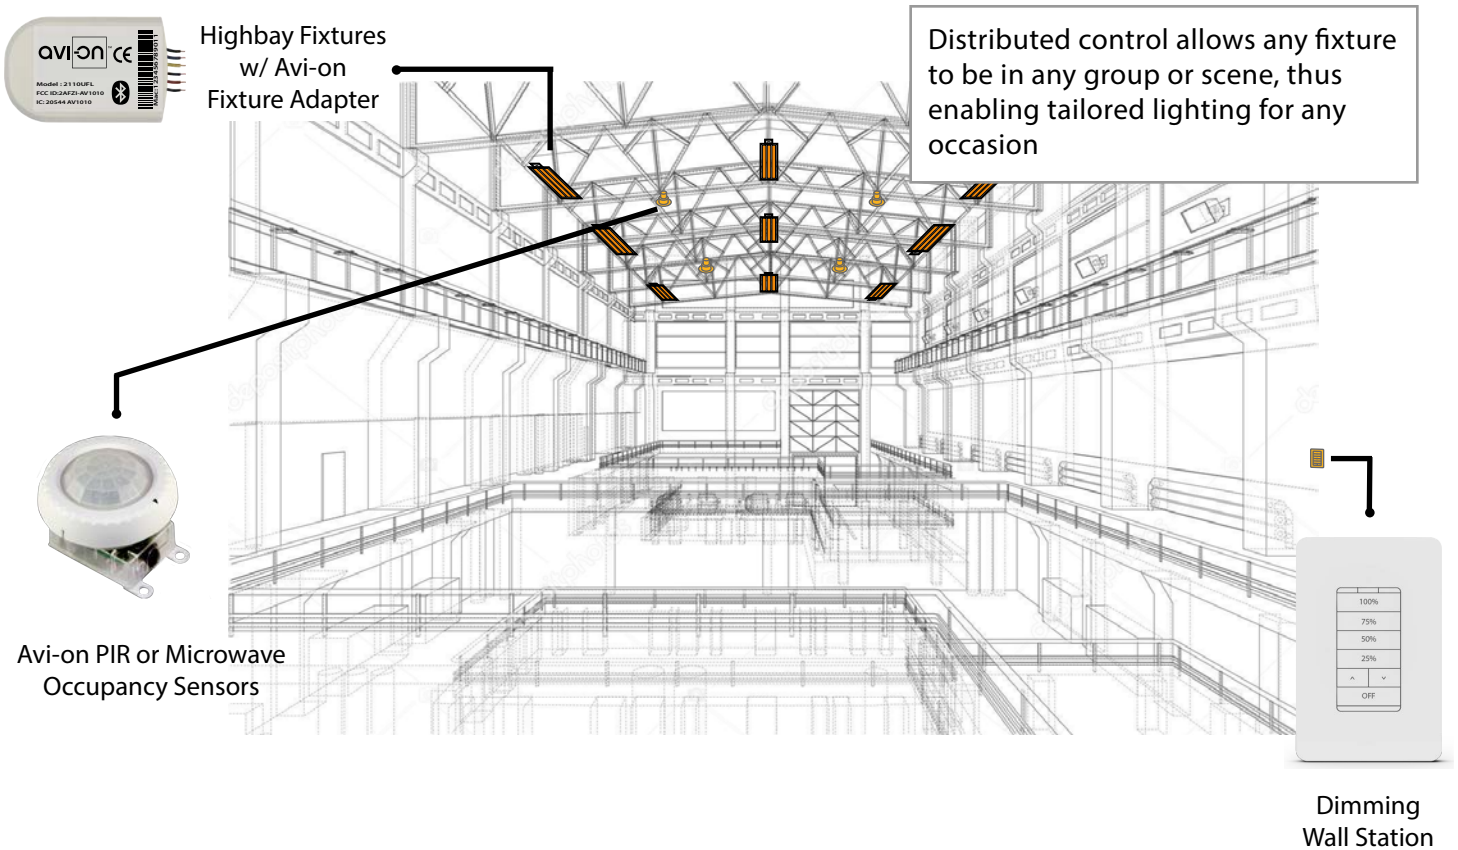

Battery Powered Dimming Wall Station

- Gateway-free, Distributed Control**
 Optimal energy savings & easy reconfiguration without a single point of failure or the cost/hassle of gateways and network installation
- Flexible Control Strategies**
 Mix scheduled and sensor-based controls with no gateways required
- Hassle-free App Programming**
 Intuitive tools enabling rapid setup and reconfiguration of groups, scenes, schedules, etc.
- IT-friendly Policy**
 Run stand-alone or use cell modem to avoid production network
- Control the Whole Property**
 Mix warehouse, manufacturing, office, and area lighting in one easy to use system
- Optional Cloud Connectivity**
 Robust, utility-grade platform manages user access control, device configurations, remote diagnostics and future reporting/upgrades

Avi-on believes that lighting controls should be simple.

With decades of experience at the forefront of industrial networking and IOT technology, we built a unique, patented Mesh platform based on Bluetooth® technology. We liberated the fixture from the circuit, and the switches from the walls. Then we added mobile and web-based management tools that liberated the customer from the tyranny of programming and maintenance. At Avi-on, simple means easy.

Virtually unlimited coverage

Avi-on mesh provides worry-free wireless connectivity and can grow as your needs do.
