

# BLUETOOTH LIGHTING MADE SIMPLE

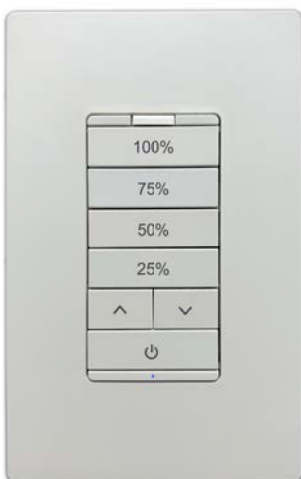

Avi-on App

## Office managers want simple lighting controls

Most networked lighting controls are too complicated to manage and configure. Building owners/operators want solutions that optimize ROI, can be self-managed, do not require IT support, and grow with business needs. Most of all, people want a solution that just works.

Avi-on makes controls that are easy to install, use and change. We make it easy to customize for any lighting configuration or space.

Scene Controller

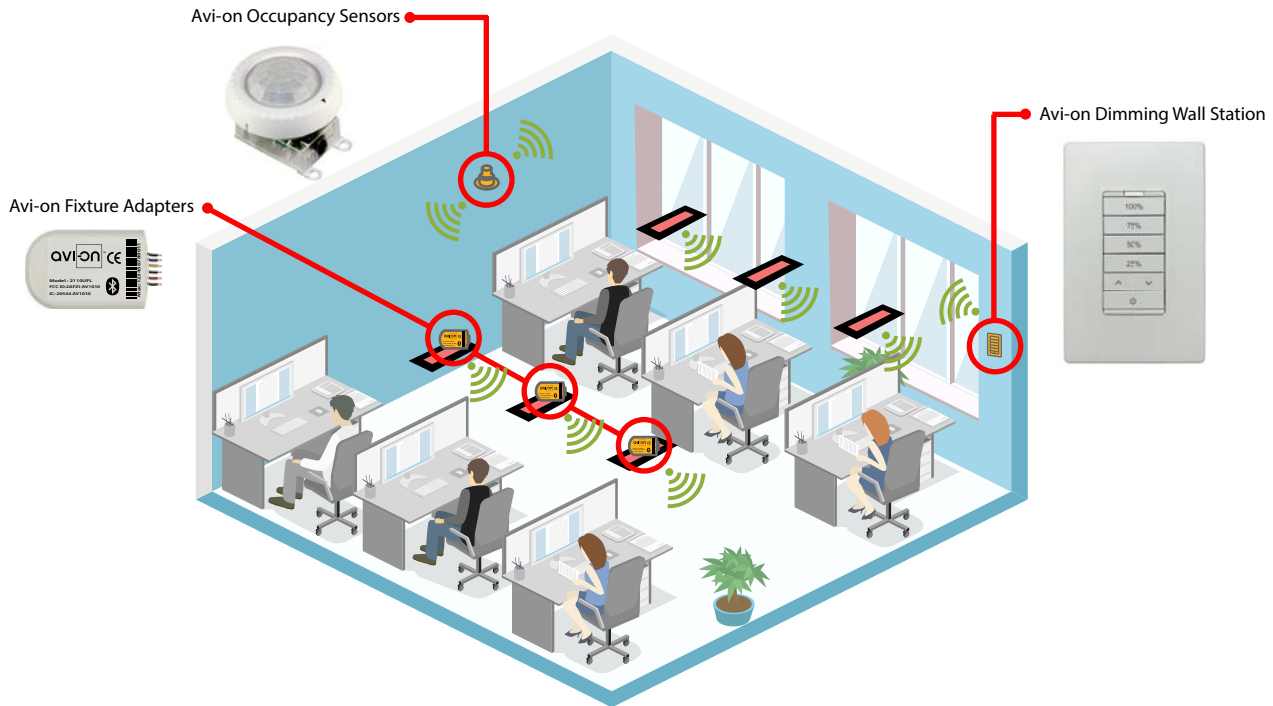

- Gateway-free, Distributed Control**  
Gain optimal energy savings without a complicated gateway: no single point of failure, no extra cost/hassle, and no special network or panel installation
- Flexible Control Strategies**  
Mix scheduled and sensor-based controls with no gateway required
- Hassle-free Mobile App Programming**  
Intuitive tools enable rapid setup and changes to any combination of sensors, zones, schedules, and scenes
- IT-friendly Solution**  
Run stand-alone or use a cell modem to avoid corporate network integration
- Control the Whole Property**  
Combine indoor and outdoor lighting control in one easy to use solution
- Color-capable Controls**  
Use battery-powered wall stations or the mobile app to wirelessly control CCT and Lumenetix-enabled (HSL) luminaires, including circadian transitions and unique color picking
- Optional Cloud Connectivity**  
Manage user access control, device configurations, remote diagnostics, and future reporting/upgrades with a robust, utility-grade platform and web application

# Avi-on believes that lighting controls should be simple

With decades of experience at the forefront of industrial networking and IOT technology, Avi-on has built a unique, patented, mesh platform based on Bluetooth® technology. We liberated the fixture from the circuit, and the switches from the walls. Then we added mobile and web-based management tools that liberate the customer from the tyranny of programming and maintenance.

At Avi-on, lighting controls are easy to install, easy to use, and easy to change.

## CCT made easy

Enhance productivity of workers using Avi-on Dynamic Color Tuning, which creates the experience of natural daylight.

## Virtually unlimited coverage

Avi-on mesh provides worry-free wireless connectivity and can grow as your needs do.
